Fixed Price
Penetration Testing

VERIFY

What is FoxTech Verify?

FoxTech proudly introduces FoxTech Verify, our innovative and fixed price Penetration Testing service. This cost-effective and comprehensive cybersecurity solution is built to serve businesses of all sizes, ensuring that your digital assets are secure and your organization's cyber resilience is fortified.

Accessible and Affordable

We understand that not all businesses have the resources to invest in expensive, variable cost cybersecurity services. **FoxTech Verify** is designed with a fixed pricing model, making it accessible for businesses of all sizes. We're making robust security testing affordable without compromising on quality.

Expert Scoping Session

Our service begins with an in-depth scoping session with a cybersecurity expert. This allows us to understand your specific business needs, technology infrastructure, potential vulnerabilities, and align our testing accordingly. The scoping session enables us to tailor our approach to your unique environment.

Comprehensive Testing

FoxTech Verify goes beyond the standard. We provide both external and internal penetration testing to ensure a holistic security check. We simulate hacker activities and assess the depth of possible breaches, providing a thorough vulnerability evaluation from every angle.

Actionable Results

We believe in providing you with clear, understandable, and actionable results. Our cybersecurity experts translate complex vulnerabilities and threats into plain English. We don't just give you a list of problems; we provide prioritized remediation strategies, making it easier for you to take action and secure your digital assets.

Enhanced Business Resilience

With **FoxTech Verify**, you're not just finding and fixing vulnerabilities; you're increasing your business resilience. Our service prepares your business to prevent, respond, and recover from cybersecurity threats, protecting your reputation and your bottom line.

FoxTech is dedicated to simplifying cybersecurity for businesses. FoxTech Verify offers top-tier penetration testing to all sizes of organizations making digital security not only accessible and affordable, but also easy to understand.

By choosing FoxTech Verify, you're proactively securing your digital landscape. Our team of cybersecurity specialists is on hand to ensure you can operate your business with assured security and success.

"Despite the fixed price, they didn't skimp on quality. The depth of their pen tests and their knack for identifying vulnerabilities was truly impressive."

– IT Manager, Manufacturing

"Not only was their pen testing service affordable, but the quality and detail of their security audit blew us away. We now feel more confident about our security posture than ever before."

– CEO, Tech Scaleup

"The quality of their service didn't just meet our expectations, it surpassed them. Even with a fixed price, the thoroughness and detail of their pen tests are better than anything we've had before."

- CTO, Financial Services
